Who We Are

We believe that you don’t simply want to be hired to do a job, but want to join an agile organization with like-minded people in a multicultural environment where you can both learn and contribute to prepare your own future.

With more than 15,000 skilled employees and a solid presence in Europe, Asia and America, the AKKA Technologies Group is one of the leaders among European consulting engineering companies.

To keep pace with this fast-changing world, AKKA Technologies created The AKKAdemy. Bringing together high-potential engineers from all over Europe to become the next generation of top engineering consultants.

The AKKAdemy’s Program

1. Find the right opportunity for you at The AKKAdemy’s International Graduate Program

2. Move to the AKKAdemy’s Geneva Campus (Switzerland) for 1 month
   • Prime international environment
   • Balanced mix of classroom education and on-the-job training

3. Move to key markets in France, Germany and Belgium for 12 months
   • Early frontline exposure to our customers’ projects
   • Work on a number of projects for world leading technology companies

4. Complete your program at the AKKAdemy’s Geneva Campus (Switzerland) for 1 week
   • Partnerships with world class technology companies will deliver fully certified qualifications in specialist areas

5. Get an exciting job offer for a position in one of our international teams

The AKKAdemy was born from the conviction that our passion for technology means putting you and your talents first!
