Market Research and Digital Marketing Internship at Startup Includer

About Startup Includer
We believe that entrepreneurs and investors are the new force that changes the attitude of how the world is operating. Therefore, we are developing software that brings different startup ecosystem key players together on a common platform. Our users include startups, angel investors, funds, VCs, investor groups and networks, startup events, startup competitions, accelerators and incubators (Taxify, Slush, sTARTUp Day, Latitude59, Estonian Business Angel Network, Startup Visa etc).

By joining our small supportive team, you will get a good insight into how startup companies are run. You will help us get a good overview of how our industry is evolving by gathering and analyzing information about our competitors. You will also observe marketing strategies of our rivals and based on that propose ideas for driving more traffic to our platform and generating new leads.

It would be great if you:
- Are fluent in English
- Are a business, marketing or economics student
- Are interested in startup world
- Are excited about learning and developing yourself

We will provide you with:
- New and interesting challenges
- Opportunity to learn about market analysis and strategy creation through practice
- Opportunity to suggest your own ideas for improving our current business strategy
- Opportunity to get a close look at how a startup business is run
- Opportunity to learn how startups raise investments
- Support and mentorship from team members
- Convenient location of work — our office is located in the sTARTUp Hub building in the city center of Tartu
- Chance to get hired after the internship

To apply, send the following:
- Your CV
- A letter explaining who you are and why you would like to work at Startup Includer

Send all materials to jobs@contriber.com.
