Trainee in Supply Chain Management

About 40% of the world’s mobile traffic carried through our networks. Ericsson develops, delivers and manages telecommunication networks by providing hardware, software, and services to enable the full value of connectivity. You will work on challenging projects and develop your skills in the areas you’re most passionate about.

Come and see what makes you and Ericsson a powerful combination!

You as a Production Planner

• understand logistics & supply chain processes
• have an analytical mindset
• can solve challenges both individually & in a team
• are willing to learn scheduling of workflow
• wish to interact with our customers, regarding orders
• familiar with excel
• fluent in English, Russian is a plus
