Finnair Business Services Ltd belongs to Finnair Group. We are responsible for financial, digital and customer support services to the companies and units of the Group. Our desire is to provide excellent quality in all we do, support development of our employees and through this contribute to the achievement of company goals.

We are hiring a

**TEST MANAGER**

to join our Testing Center team in Tartu, Estonia

Test Manager in Finnair Business Services has the ownership of the testing process and is responsible for leading, guiding and monitoring the analysis, design, implementation and execution of different test cases, test procedures and test suites.

Some of your daily tasks are:

- Plan and define the testing needs in different projects
- Create and update testing plans for quality assurance specialists
- Implement risk, quality and change management and mitigation in co-operation with Project Manager
- Recognizing test automation possibilities
- Define and provide needed quality assurance trainings to Testing Center team and other stakeholders
- Practice continuous improvement as day to day working method
- Develop test objectives, test strategies and test plans with other stakeholders
- Supervising the Testing Center team work

Ideal candidate has solid previous work experience from software quality assurance and strong knowledge of agile methodology.

If you excel in troubleshooting, have analytical and problem-solving skills and great ability to plan testing resources, then challenge yourself in aviation industry and be part of the digital world of Finnair!

Position is in **Tartu, Estonia.**

Application period is open until **30th of September 2019**
